CAREER OBJECTIVE

Aspiring Web Developer and Front-End Specialist passionate about building responsive, accessible, and intuitive user interfaces. Eager to apply expertise in modern web development and user-centered design to create innovative web solutions that improve digital services and streamline business processes. Committed to continuous growth and delivering high-quality work in collaborative, fast-paced environments.

SUMMARY OF QUALIFICATIONS

- Skilled in building responsive websites with HTML, CSS, and JavaScript.
- Knowledgeable in both front-end and back-end web development.
- Experienced in creating personal projects using modern web tools.
- A fast learner dedicated to improving my web development skills.

PROJECTS CREATED

Recowebdation (https://recowebdation.vercel.app) HTML, CSS, JS

I created this website to help the students and beginners explore IT and coding. We recommend easy-to-use platforms, tutorials, and tools to help anyone learn, practice, and build confidence in technology.

AtTheBlanc (https://attheblanc.vercel.app) HTML, CSS, JS

I created this website for AtTheBlanc coffee shop after noticing they lacked an online presence. It gave me the opportunity to practice web development while building a functional platform that highlights the café's story, features and community.

Thryve (https://thryve-ver2.vercel.app) MongoDB , Vue.js , Node.js

This website is a group project that is about fitness website that helps users track their food, water, and exercise. It's designed to make monitoring daily habits and reaching fitness goals simple and motivating.
